

K LAB

K LAB

KRONOS CERAMICHE produce pavimenti in gres porcellanato da oltre 30 anni. Le competenze finora acquisite, unite a una costante attenzione per le innovazioni, hanno portato l'azienda a rappresentare il Made in Italy nel mondo. L'obiettivo è sempre stato quello di evadere dall'ordinario per trovare soluzioni alle richieste più complesse, con una ricerca costante, un'alta flessibilità di idee e prodotti, in un continuo confronto con l'architetto e il cliente. Un atteggiamento sartoriale tipicamente italiano che permette di sognare e vedere realizzati i propri "progetti da abitare", proponendo un "made to measure" ogni volta diverso con immutato entusiasmo e passione.

KRONOS CERAMICHE has been producing porcelain floor tiles for over 30 years. The skills acquired so far, combined with a constant attention to innovation, have led the Company to represent the Made in Italy in the world. The main purpose has always been to escape from the ordinary to find solutions to the most complex requests, with constant research, high flexibility in ideas and products, as well as a continuous dialogue with the architect and the customer. A typically Italian sartorial attitude which allows you to dream and to see your own "living projects" realized, proposing a "bespoke" solution, different every time, with unchanged enthusiasm and passion.

K LAB

Made
by gres

Klab è un contenitore che raccoglie tutto ciò che è "speciale": scalini, soglie, bordi piscina, ma anche mensole, lavabi, tavoli e molto altro ancora. Tutti i pezzi speciali sono personalizzabili e commissionabili su misura negli spessori 1 cm, 2 cm e 6 mm, per interno ed esterno, in base ai prodotti in gamma.

Klab is a container that collects everything that is "special": steps, thresholds, POOL-EDGES, but also shelves, washbasins, tables and much more. All special pieces can be customized and commissioned to measure in 1 cm, 2 cm and 6 mm thickness, for indoor and outdoor, according to the current products.

Bespoke concept

Bespoke è un termine inglese utilizzato dalle grandi firme della moda per identificare i vestiti fatti “su misura”.

Kronos ha fatto propria questa filosofia per dare lo stesso tipo di servizio personalizzato ai clienti più esigenti, che possono quindi creare i pezzi speciali secondo le proprie esigenze sia estetiche che progettuali.

Lavorazioni manuali che rendono ogni opera unica ed irripetibile, riscoprendo l'antico valore dell'imperfezione.

Bespoke is an English term used by the big names in fashion to identify clothes made by “tailored suit”. Kronos has adopted this philosophy to give the same type of personalized service to the most demanding customers, who can create the special pieces according to their aesthetic and design needs.

Manual processes that make each job unique and unrepeatable, rediscovering the ancient value of imperfection.

RIPRESA DELLA COSTA SIDE FINISH

I prodotti Kronos sono realizzati in gres porcellanato a massa colorata, si ha quindi la possibilità di lavorare la costa ogni volta che il fianco di una piastrella diventa visibile (per esempio nel caso di una lavorazione a “TORO” o “BECCO DI CIVETTA”).
La “ripresa della costa” consiste in un processo manuale che rende l’impatto esteticamente più omogeneo con la finitura superficiale della piastrella.

*Kronos products are made of colored body porcelain stoneware. This allows us to work on the front side of the product and make it perfect, every time the side becomes visible (for example in the case of a “TORO” or “BECCO DI CIVETTA” finish) .
The so called “RIPRESA DELLA COSTA” consists of a manual process that makes the impact of the special element aesthetically more homogeneous with the surface finish of the tile.*
